ZONE 3 TERMLY UPDATE

THE BEACON WALMER

Curriculum Highlights

Digital Technology Day

The pupils had lots fun on a whole day themed on our Digital Technology curriculum strand. The children have spent time in the ICT suite, explored Beebots, taken part in online live lessons and learnt about online safety. The Year 6s and 7s also took part in an online safety talk with the 6th form E-Leaders from our Folkestone site and The Breck Foundation.

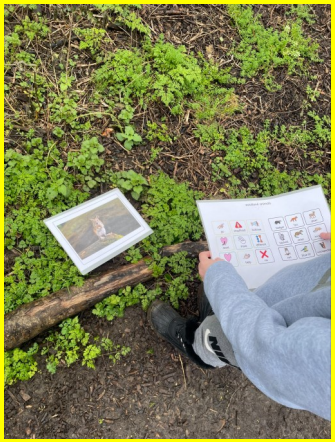
Music

All of our classes have taken part in weekly music workshops with Allen Ince. They have been experimenting with different instruments, body percussion, singing and experimenting with our very own full set of drums! The Year 7 pupils also have been practising for a KSENT project called 'Intergalactic Emergency', where they will be performing with other schools in Canterbury next month.

Parent Training

We have had some very successful parent training this term including Proact Gateways—Communication and Talk for Life-ing. Please keep an eye on Arbor for further opportunities for parent training next term. If you have any suggestions for parent training, please let the office know.

Have a happy and relaxing half term!



Glendale

We have continued our very successful relationship with our local residential home, Glendale. A small group of children visited the elderly residents, shared stories, played games and participated in activities. A fun morning for all!

Sport & PE and clubs

This term we have introduced lunch time clubs every day to try and provide different opportunities for our pupils and provide an alternative to outside play. These have included Construction club, Art, Dance, Lego and Hair and Beauty. The children also took part in a Zumba workshop.

Next Term

There are lots of exciting things happening next term, including National Careers Week, Communication Day, World Book Day, Glendale visit , Holi celebrations and an afternoon of Easter crafts.
