

Term 1 – Learning in Tobago Class

Communication:

This term in our focus in communication is Story Mapping. We will be learning about the story “Cesaria Feels The Beat” by Denise Rosario Adusei.

Number:

In number we will follow our Maths for Life scheme. Term 1 will involve exploring prenumber skills such as matching and simple comparisons.

Understanding the World:

Our themed learning topic this term is ‘Tobago’ allowing us to explore all about our class name’s sake!

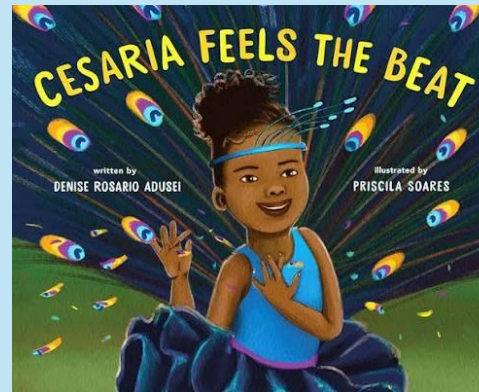

In our science lessons, we will be exploring materials. This ties in brilliantly with our Art lessons, which will be inspired by the cultural exploration of Tobago. For our Geography lessons we are going to investigate the location of Tobago itself, and music will be exploring the rhythms of Tobago and what it feels like to experience a carnival!

Healthy Lifestyles:

In citizenship we are exploring, ‘self-awareness’ and the importance behind this.

Our PE focus this term is Ball Skills!

In Food tech we will be exploring snacks inspired by Tobago and celebrating healthy choices.

Digital Technology:

In computing we will be focusing on ‘computer science’ which will involve encountering Beebots and learning how to accurately programme them.
