

Going back to  
school.

The Government has said it  
is safe to go back to school.  
My friends and teachers  
will be pleased to see me.

I will try to remember my routine and what I need to take to school. Adults will support me with this.

It might take me time to get used to the school routine and what school is like. I will have my lunches at school this might be school dinners or packed lunch.

School might feel different to home, it may smell different and there will be different noises. This is ok. If school feels different, I will try to ask an adult to help.

All children will return to school. Going back to school is important so that all children can continue to learn.
