

## My School is Closed.

My school is closed because of the Coronavirus. All schools have been told to close by the government, this is to keep the virus from spreading.

My teachers and friends will be told to stay at home too.

When I am at home, I will try to do some activities. I might try to do some reading, writing and maths, and other activities. My teacher may like to see what activities I have done when we return to school.

We do not know how long my school will be closed. The government will decide when schools open again and tell my family/carers. Until then I will try to be happy at home. My family and teacher will be happy if I try to complete some school activities at home.
